- Earlier completion date of two weeks to be specified by SEC.
- The experiments requirement will be removed for the 2021 examinations. The marks will be reallocated across the remaining sections of the marking scheme for the artefact (50%) and design folio (50%).
- 'Instruction to candidates' on coursework 2021 to issue in early September instead of November (as in previous years).
- The 'Instructions to candidates' document to include the revised marking scheme highlighting the coursework requirements, mark allocations for 2021, and a recommendation advising consideration to coursework selection in 2021 given the period of school closure in the 2019/20 school year and potential loss of further time.
